

COVID-19 Employer Site Safety Plan

As British Columbia has begun to ease restrictions related to the COVID-19 pandemic, public schools will play an important part in the provincial government's Restart Plan. The carefully measured steps outlined by the Ministry of Health and the BC Centre for Disease Control, coupled with the Ministry approved district return to class safety plan, will ensure a smooth transition back to school for students. We want to assure you that we will continue to be diligent in ensuring that all public health expectations are met or exceeded as more students continue with their learning plans.

Guiding Principles: All stages of the education restart plan will continue to be guided by health and safety guidelines, measures, protocols and orders, as well as the principles developed for continuity of learning during the pandemic:

1. Maintain a healthy and safe environment for all students, families and employees.
2. Provide the services to support children of essential workers.
3. Support for students who may need special assistance.
4. Provide continuity of educational opportunities for all students.

Keeping the restart plan guidelines in mind the Chilliwack School District has developed this additional site safety confirmation of work site COVID-19 Safety Plans to ensure our students are safe and healthy while continuing their Career programs, Work experience or Apprenticeship placements.

Please attach a copy of your individual enhanced site safety plan in accordance with the Ministry of Health, Worksafe BC and the B.C. Center for disease control requirements.
