

Math Numeracy Online Series Presents:

Michael Pruner

Rich Tasks: Teaching math through tasks that make you think.

In mathematics classrooms, we strive to have our students engaged in mathematical thinking with persistence and curiosity. In this workshop, we will look at how to accomplish this through designing rich, content-focused mathematical tasks and a classroom culture that thrives on these types of tasks.

Target audience:
Intermediate and Middle Teachers

Date: Wednesday, Oct. 28th - on Zoom
Time: 3:15 - 4:45 pm
